## McDOUGALL-ANDELL

A very pretty wedding ceremony took place at St. Anne's Catholic church at 9 o'clock on Wednesday morning, the contracting parties being Mr. Joseph McDougall, store keeper and assistant accountant at the Blairmore Iron Works, and Miss Annie Andell, eldest daughter of Mr. and Mrs. F. Andell, of Frank. The ceremony was performed by the Rev. Father Cosman in the presence of a large number of friends and immediate relatives. The groom was supported by Mr. W. Bird, while Miss Mabel Peacock, of Lethbridge, attended the bride.

Following the ceremony, the party repaired to the dining room of the Cosmopolitan hotel, where a sumptuous breakfast was served.

The happy young couple, who were recipients of numerous beautiful and costly presents, joined the evening train for Calgary, where the honeymoon will be spent. Returning, they will take up residence in the Blairmore apartments.

The best wishes of their many friends attend them for a long, happy and successful period of wedded life.

Rumor has it that Mr. J. D. S. Barrett, former editor of the Coleman Journal, has been offered the position of news editor on the Daily Sun at Yuma, Arizona. Mark Drumm, former editor of The Frank Paper, is a member of the Yuma Daily Sun staff.

Teacher—Now, suppose a man suddenly fell off the river bank into the water, he can't swim, he cries out for assistance, his wife hears him, she runs to the bank. Why does she run to the bank?"

And the bright scholar in the rear seat piped out: "To draw his insurance money!"

## HOCKEY

We are asked by the President of the Blairmore Hockey Club to state to the public that said club is not responsible for views expressed by us or any member of our staff, and that we are free-lance writers.

For the benefit of the above official, and particularly the public, we might state that we are free-lance writers in the truest sense of the word; that we have never sought information from the officials of the Blairmore Hockey Club, or any other club or organization or enterprise with the main object in view of receiving a complimentary ticket to the ring-side for giving any official's views publicity; that we are honest-to-goodness straight cash supporters of every undertaking redounding to the good of the community and its public, including sport of every honorable description; and further that we are not owned or controlled by any individual, club or organization on God's green earth.

Henceforward, touchy so-called sport fans of any town can take it for granted that unless any comment in these columns on sport or anything else bears the signature of another author, we are solely responsible.

## BELLEVUE DEFEATS BLAIRMORE 7-5

Bellevue defeated Blairmore on the former's ice on Monday night to the tune of 7 to 5. The first and second periods afforded a splendid exhibition of hockey, the teams tying 2-2 in the first and 4-4 in the second. The third period found the Blairmore boys somewhat disorganized, due mainly to unfair refereeing.

Upwards of one hundred and fifty Blairmore fans journeyed to Bellevue to see the game, hoping that Harry Scott, of Calgary, or some other impartial character, would be the referee in charge, but were disappointed to find Tommy Clark still on the job. A large number of them have decided that if further games are to be refereed in this district by Clark, they are through as fans of senior hockey for this season.

## COLEMAN WINS AT LETHBRIDGE

Coleman's Selkirk team now heads the league, having defeated Lethbridge at Lethbridge on Tuesday night by a 7 to 3 score.

## BLAIRMORE AT COLEMAN TONIGHT

Blairmore plays at Coleman tonight. The local team is still weakened through the inability of Reddick to play.

Lethbridge plays at Bellevue tomorrow night and Bellevue will play return at Blairmore on Monday night. Both these games should be big drawing cards, provided an impartial referee is brought in.

The Blairmore Intermediates almost walked away with the Pincher Creek aggregation last night, when in a clean game they defeated the visitors to the tune of 10 to 1.

As will be noticed by an advertisement elsewhere in this issue, and bills liberally distributed during the week, the Christie Grant Co's Blairmore store has received instructions to conduct a mammoth stock reducing sale. The sale commences at once and will continue for twenty-one days.

At the regular meeting of Blairmore L.O.O.F. Lodge on Tuesday night next, the officers for the ensuing term will be installed by District Deputy Grand Master George Christie. A full attendance is requested at this meeting and visiting Oddfellows are cordially invited. Refreshments will be served.

## MRS. BARBARA POCH DIES

Mrs. Barbara Poch, of Frank, died at the local hospital on Friday of last week. The remains were laid to rest at Blairmore on Sunday afternoon, Rev. W. T. Young officiating.

The funeral was largely attended. Besides her husband, Mrs. Poch leaves three married daughters at Frank, Mrs. Roboch, Mrs. Nayak and Mrs. Goich; and two sons, Charlie, in Nebraska, and a boy of thirteen, at home.

We understand that G. G. Henderson, present mayor of the city of Fernie, will not be a candidate for reelection. Mr. Henderson has served the city well during his tenure of office. It is said that Mr. Irvine or Mr. Harry Douglas are most likely aspirants for mayoralty honors. Either has had the experience and doing somebody out of a paltry hard-earned dollar. Nevertheless, a glorious time was had.

The province of Alberta profited to the extent of upwards of \$1,137,000 during a part of 1924 as a result of the Alberta Liquor Control system. It is now suggested that the municipalities be entitled to the full portion of fines resulting from action taken within the municipalities by the A.P.P. or town police. In any case, the towns should be entitled to the returns from permit fees, which are purchased by supporters of the present workable system.

Thank goodness, that big New Year's dinner given by the business men of Burnis is over and we are now privileged to sober up or otherwise recuperate. Quite a number of provincial celebrities were absent, some getting married, some getting drunk, and not a few stealing two dollars from a neighbor with which aspirants for mayoralty honors. 1925, or devising ways and means of Either has had the experience and doing somebody out of a paltry hard-earned dollar. Nevertheless, a glorious time was had.

## H. B. Co. Gets Land

6,629,000 Acres of Western Canada  
Land As Final Settlement

Under an agreement between H. B. Co., Stewart, Minister of Interior, and the Hudson's Bay Company, the company is to receive 6,629,000 acres of land in Western Canada in final settlement of the terms of purchase entered into in 1867.

The land is to be selected from the "fertile belt," which is bounded by the Rocky Mountains, the Saskatchewan River, the Lake of the Woods and the international boundary.

The history of the dispute dates back to the time when the Canadian Government agreed to pay a certain sum of money and give other considerations of land, etc., in order to compensate the company for the retirement of its charter. The agreement provided that among other considerations the company was to receive one-twentieth of the land in the "fertile belt" before mentioned. There arose a disagreement as to whether Canadian reserves, etc., should be charged in the total of which the company was to receive a twentieth part, and the negotiations have been proceeding for years and years. The company claimed 7,100,000 acres, but finally agreed to accept 6,629,000 acres as final settlement of the terms of the 1867 agreement.

## Another Air Mystery

Two Members of Royal Air Force  
Disappeared July 24

To the many unsolved mysteries of the air has been added another in the disappearance of First Lieutenant W. J. Day and Pilot Officer D. B. Stewart, two members of the Royal Air Force in India, who set out on July 24, for their aerodrome at Shahal, and never returned.

Their abandoned machine was found in a lonely part of the desert. It was intact, there was petrol in the tank, and as a matter of fact it was afterwards flown back to the aerodrome. The most exhaustive search has failed to discover any trace of the missing aircraft.

## Pain In The Muscles, Stiffness In Joints,

Quickly Subdued By Nervine

Those who have tried out numerous liniments will agree that where something is needed to dislodge a rheumatic, morbid, or chronic condition there is nothing to compare with Nervine. It is because Nervine does this that it has been used for about five times the strength of the ordinary oil preparation. It has come to be known as King over all Pains. For Rheumatism, muscular and joint stiffness, Nervine works wonders. A trial proves this. Get a 25 cent bottle from your dealer to-day.

Keeping Oneself Fit

Another Scientific Discovery  
German Professors Claim Solid Insulin New Diabetes Remedy

A new help for sufferers from diabetes in the form of a solid insulin has been discovered by Professor Hermann Kruse and his colleagues, of Berlin University medical clinic.

Insulin is insulin in the form of a solid powder, which can be rubbed on the tongue and thereby absorbed directly into the blood. This is considered to be a revolutionary discovery because the discoverers, of insulin, Banting and Best, of Toronto, Ont., are reported to have held that treatment by insulin was possible only through injections.

Beauty Hints For Girls  
They recently appeared in the advertising columns of a popular newspaper an offer for one shilling of a recipe by the use of which the hands would become soft and beautifully white. Many thousands of girls responded, and in the time received a piece of paper containing the following words: "Shak the hands three times a day in dishwater, while mother rests."

An Ancient Hindu  
A London police magistrate was host to a thousand-year-old man recently. The Hindu was arrested on a charge of intoxication and several days later ordered a "bail" for "excess" on the grounds that he was "an old man" but just how old he didn't know—but at least a thousand years. He claimed to have invented a "long life medicine."

## Business In West Improved

Spirit of Optimism is Prevalent Throughout the Country

Business conditions in Western Canada and British Columbia, according to press statements, shows a general and consistent improvement over conditions in recent months. It is based on figures which are also being noted in the situation. While there is nothing approaching a boom anywhere, the sale of a fair crop at high prices has put into circulation in the prairie provinces, large sums of money and there is a spirit of optimism everywhere, and confidence that the improvement will be continued and developed in 1925.

Only a portion of the crop money has reached the producers as yet, but the result has been very marked. Large numbers of obligations to mortgage and implement companies and to the banks have been liquidated wholly or in part, and while the farmers are handling their funds with a good deal of caution, considerable general purchasing has been done. Wholesale houses report that sales are increasing in number, although individual orders are not heavy, and this condition is reflected in the retail trade.

## Britain Will Build Two Battleships

To Carry Nine 16-inch Guns With  
30,000-yard Range

The new British battleships Rodney and Nelson, first 35,000-ton post-turret capital ships to be built, will carry nine 16-inch guns, 30 calibre wire-wound guns mounted three to a turret, with all three turrets in the forward part of the ship, a horse power sub-committee has been informed by Captain Harry H. Hough director of naval intelligence.

By comparison with the United States 16-inch gun class ship the West Virginia and Maryland, and the Japanese equivalent, Matsu, the Rodney and Nelson will be of greatly increased size and power, and will have a gun range in excess of 30,000 yards.

Only a portion of the crop money has reached the producers as yet, but the result has been very marked. Large numbers of obligations to mortgage and implement companies and to the banks have been liquidated wholly or in part, and while the farmers are handling their funds with a good deal of caution, considerable general purchasing has been done. Wholesale houses report that sales are increasing in number, although individual orders are not heavy, and this condition is reflected in the retail trade.

BARTLETT AND

BEEBES, AKIN

We have just discovered that Bart-  
lett and Beebes have been akin in  
history for at least a century, and re-  
ference to the fact is made by Her-  
bert Corey, a well-known writer, in  
an article recently contributed to the  
Spokesman Review. His comment in  
part is as follows:"Bob Bartlett is in town, ready to  
captain William Beebe's ship on an  
exploration of the Sargasso Sea. The  
Sea of Dead Ships, that has figured  
in seagoing romance for a couple of  
centuries. And Bartlett and Beebe  
are a good pair. Beebe has come  
near popularizing natural history.  
When he tells the story of an army  
of ants invading hostile territory in  
some equatorial jungle one simply  
does not put the book down. While  
as for Bartlett—"A real old-time seaman. Born and  
brought up on the Newfoundland  
coast. The best man of the fishing  
fleet. The man who captained  
Peary's ship, and turned back with-  
out a murmur when within a day's  
march of the Pole because the bow  
told him to. Others have said it  
wasn't fair, but Bartlett never did.  
His job was to get back and put the  
ship in commission. It was Peary's  
job to find the Pole.""But one wonders how Bartlett is  
going to like this Sargasso Sea ex-  
pedition. For—listen! There never  
was so completely woman-shy a man  
as Bartlett. His life has been spent  
on the angriest waters that ever  
rolled. His talk is deep-sea talk,  
salty and strong. The ladies begin  
to purr as soon as he comes in sight.  
It always works out that way. A  
pretty boy hasn't a chance against  
a sailor.""And six of Mr. Beebe's assistant  
scientists are to be very pretty  
women. Dear Bob! Poor Bob!"

### NEED TO REVISE EDUCATION

If he could organize his own  
schools, he "would teach boys and  
girls to read well enough to read  
newspapers and then not say at them  
until they showed desire for more  
education." Clarence Darrow, noted  
Chicago attorney, told students at  
Colorado State Teachers' college re-  
cently."It is wrong to shape boys to fit  
education," he said. "Education  
should be shaped to fit boys and not  
to educate them all to the same pat-  
tern."The Chicago lawyer declared that  
environment has a vast influence in  
educational fields and that children  
should be appraised and educated ac-  
cording to their capability and needs.

### COWLEY HAPPENINGS

A most enjoyable time was spent  
at the home of Mr. and Mrs. M. A.  
Murphy on New Year's Eve, when  
Mr. and Mrs. Lionel V. Moore-Reel  
gave a party for the young folks of  
the village. The rooms were taste-  
fully and appropriately decorated for  
the occasion, and everyone seemed in  
a merry mood. What was the chief  
amusement the early part of the  
evening. The lucky prize winners  
were: Ladies' first, Miss Doris Mc-  
Ewen (burnt leather photograph al-  
bum); gent's first, John Dewar (gold  
belt chain). The booby prizes were  
awarded to Miss Mildred Easterbrook  
and Doolie Easterbrook, being a ka-  
zoo and a pair of clappers, respect-  
ively. At midnight the guests were  
presented with novelty caps as they  
went to the dining room in couples,  
where they had the pleasant surprise  
of a long table decorated with bou-  
quets of roses and illuminated with  
candles set in dainty containers of  
red-frilled crepe paper, which was  
generously showered with Christ-as-  
snow. The table favors were licorice  
balloon pipes, which created a lot of  
amusement. Under each guest's plate  
was a fortune, which had to be read  
aloud. The young host and hostess  
presided over the table as the merry  
makers ate the old year out and the  
new one in, after which dancing was  
enjoyed till two o'clock. Among the  
guests present were: Miss Sybil East-  
on, Miss Mildred Easterbrook, Miss  
Jean McEwen, Miss Doris McEwen,  
Miss Hilda Hannan, Miss Martha  
Tustian, Miss Allison Brockwell, John  
Dewar, Ralph Hamlet, Doolie Easter-  
brook, Arthur Tustian, Bill Torrence,  
Clair Snyder, Emile Fortier, Kenie  
Fasiani and Brad Tustian. Several  
others were unable to attend, owing  
to severe weather conditions.Walter Wilson has accepted the  
position as teacher of the Tanner  
school.H. D. McMillan has returned from  
Calgary, where he had been visiting  
for several days.The local orchestra will give a  
dance in Tustian's hall on Saturday  
night, January the 10th. A good  
time is expected.The village school re-opened on  
Monday, with R. A. Morgan as prin-  
cipal and Mrs. E. M. Frith as teach-  
er of the junior room.H. V. Hildridge has accepted the  
position as teacher of the Tennessee  
school, which re-opened on Monday  
last.Miss Ruth Pink, of Tennessee dis-  
trict, has taken rooms in the Christie  
block for the convenience of attend-  
ing high school here. She is taking  
grade XI.The local school re-opened on Mon-  
day.

## Here and There

At the close of Montreal's 1924 season of ocean traffic on December 3, the Harbor Master announced that 1,222 ocean and coasting ships arrived in the port during the year as against 1,114 in 1923 and 1,064 in 1922, the best previous season. It is believed that a new record has also been established in the number of lake vessels visiting the port.

The service operated by the Laurentide Air Service to the gold-fields of Rouyn, Que., which was successfully inaugurated this summer, will be continued during the coming winter. Travelers will make the journey in luxury, closed machines with plush seats and a carrying capacity of six passengers being employed.

Canada stands out to the interesting British emigrant as the most attractive of the Dominions, according to General Bramwell Booth, head of the Salvation Army, who has just completed a tour of this country. The army is now considering the establishment in western Canada of a training school for boys who wish to take up farming there.

Another fine new station was made available to the public by the Canadian Pacific Railway when the company's new building at Schreiber, Ont., was opened by M. J. Humphrey, general superintendent of the Algoma district, on December 11. This structure, which replaces the former frame building, is of modern fireproof construction. It will also house the superintendent of the Schreiber division and his staff.

Three times winner of the world's champion wheat prize at the Chicago Live Stock Show, including this year's prize, J. C. Mitchell, Agoma, Alta., sailed for the Old Country on a demonstration tour aboard the Canadian Pacific steamship "Montreal" on December 12. Mr. Mitchell states that prize wheat is improving each year and that exhibits which would have won first prize twelve years ago now seldom take higher than fifteenth place.

The winners of the Canadian Pacific Railway's Ontario bungalow camps fishing trophy competitions for 1924 were announced recently. The French River competition resulted in two competitors turning in fish almost identically alike. In this contest a tie was declared. The successful anglers were D. W. L. Hawkins, New York City, and H. H. Champ, Hamilton, Ontario, each entering a small mouth bass weighing exactly 4 pounds. The winning fish at Nipigon River Camp was a 6 pound, 10 ounce trout, caught by William Metzger, Detroit, Michigan. The Devil's Gap (Lake of the Woods) trophy was won by J. A. Furlong, Winnipeg, Manitoba, who entered a muskellunge weighing 20 pounds, 8 ounces.

Calgary defeated Saskatoon two to one in a big league game on Saturday night last at Calgary.

No need for a hog-booster campaign. We have more real "hogs" in the Crows' Nest Pass than the city of New York could handle.

Mrs. Ralph Smith, M.L.A., of British Columbia, familiarly known as "Mary Ellen," will be in Calgary on January the 20th, when she will speak at the U.F.A. convention.

Mervin "Red" Dutton, of the Calgary Tigers' defense line, is Frank Patrick's choice of defense stars. He claims Red is the "greatest defense player in organized hockey."

Miss Charlotte McEachern, of the Coleman public school teaching staff, spent the Christmas holidays with her parents in Lethbridge and returned to her duties on Monday morning.

A \$250,000 Roman Catholic university hall at Edmonton, to accommodate Catholic students of all nationalities, is a possibility for this year and negotiations are now under way.

Out of two hundred and fifty-eight churches in Canada voting on the question of union, only twenty-eight voted against entering the ranks of the United Church of Canada.

It is a pleasure to think that the next time we have to tackle a crossword puzzle, we may be viewing it from a point above a modern lady's ankle.

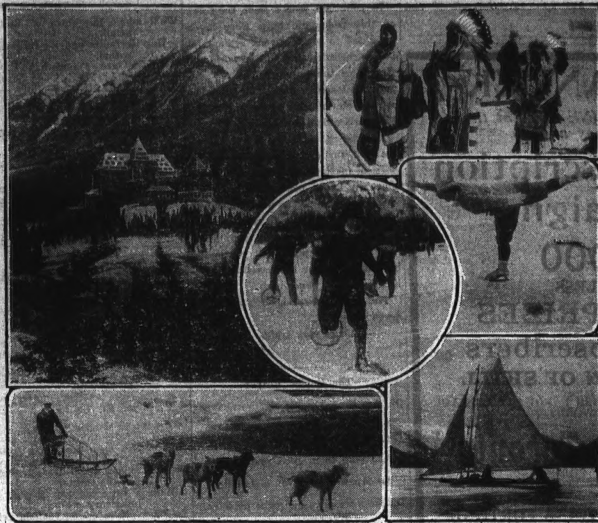

The other day Joe Bond remarked: "We had been planning to buy a radio set when a new baby arrived." When a little school boy came to the house, the nurse informed him that she had something to show him. He thought of the expected radio set. Shown into the room, he looked long and earnestly at the new baby, but without comment. Next day at school the teacher asked the boy about the new baby. "Well," he replied, "I expected to see a radio set; but that baby acts something like one. When she isn't receiving she's broadcasting."

### A BAD BREAK

A clergyman opened his Sunday school class with the well-known hymn, "Little drops of water, little grains of sand." In the middle of the first verse he stopped the singing and complained strongly of the half-hearted manner in which it was rendered. He made a fresh start. "Now, then," he shouted, "Little drops of water, and for goodness sake put some spirit in it!"

## Calgary and Banff to Unite in Carnival

Top left, Banff Springs Hotel in winter gear; below, a dog sled team. Stoney Indians attend the Carnival in full force and regalia, and enjoy skating, snowshoeing and fox-jumping are but a few of the many seasonal attractions to the famous mountain resort.

Banff. Immediately one conjures up visions of the Bow River, the Valley, sunny skies, warm days, murmur of ponies, excursions into the snow capped mountains, swimming in the pools, hiking boots, breeches and bathing suits. There are a thousand pleasant memories of Banff in summer time. Comparatively few, however, have any idea of this mountain resort in winter. Yet, after all, having leisure, what "ter place" could be found in which to spend a long or short vacation after snow has fallen. Cold? Certainly no more so than down on the plains where what winds there sweep uninterrupted.

Sheltered by the rocky slopes on practically all sides, and with a drier atmosphere, the frost there gives an invigorating touch that stimulates life and activity here elsewhere the country sleeps through the winter. A Quebec to the East, so, perhaps even to a greater degree, is Banff to the West. The home of Winter sports.

Instead of going to sleep, the little town of Banff comes to life with the coming of snow. One event and community effort follows the other, and a long list of sporting activities culminates in February with a huge seven day carnival in which all citizens and hundreds of enthusiasts from all parts of the World, take part.

It will only be the case of a very few years until riots arrange their trips to take in the Carnival at

Banff as they now visit New Orleans in March for the Mardi Gras, or Pasadena for the Rose Tournament. Apart from the glorious scenery, it is a perfect Winter playground.

Preparations are even now under way for the next Winter Carnival. This, to be held from February 7th to 14th inclusive, is planned to be the greatest yet. Calgary enthusiasts have decided to cancel their own carnival arrangements and to unite with the Banff citizens to make it a success. A very comprehensive program of sports has already been drawn up covering events in curling, skating, snowshoeing, sled running and jumping, ski-joring, tobogganing, trap-shooting, sleighing, and swimming in the hot sulphur pools. For none of these sports could the setting or the convenience be excelled.

For the adventurous visitor Lake Minnewanka offers fox-jumping. Dog-sled races are a never failing source of interest. These races are often run down the main street, and, as in other sports, it is often a case of the best dog being beaten as a great deal of comedy is played. It often happens that an over-anxious or jealous contestant grabs an opponent in any convenient place and in the ensuing mixup any old bound can waddle home an easy winner. But in all in the game, and the game at Banff is the out-door game—with dancing, cards or concerts in which each one plays a part in the evening.

Why is it that the Alberta Minimum Wage Act is made particularly to apply to only four cities and eight towns, including Blairmore and Coleman? Very few of the communities to which the act is made particularly to apply are dependent upon farming.

A splendid season of winter sports is expected at Quebec this year, as more and more people are becoming interested in these healthy recreations in Canada and the United States. In connection with the activities of the Chateau Frontenac, the Canadian Pacific's great hotel in the Ancient Capital, a number of new features will add to the attractions Quebec has to offer. These include inter-city, inter-collegiate and international competitions in all winter sports, to be held under the auspices of the recently formed Frontenac Winter Sports Club, which will award the successful participants with trophies of various kinds and attractive gold, silver and bronze medals.

The names of the winners of the David prizes for literature, awarded to the writers of the best French and English books entered in the competition for these prizes, have just been announced by the committee of judges. In the French section the first prize, \$1,500, went to Abbe Camille Roy for his book "A l'Honneur des Erables," while in the English section Marjorie Grant Cook won first prize with her book "Another Way of Love."

The most successful year enjoyed by the Canadian Pacific Great Lakes Steamship Service in freight shipments since 1913 is reported by Mr. Duff, manager of that service, for the season lately closed. The whole fleet of package freighters for the first time since the outbreak of the Great War, has been constantly employed during the seven months in which the lakes are open. A feature was the very large increase in the export flour business, some 75 per cent of the 300,000 tons of flour carried eastward by the service having been destined for export. October was a particularly good month, the ships having transported in that month 68,000 tons of eastward bound milled stuffs and grain alone.

## A Great Teacher

ADVERTISING conducts a public school. Its pupils are all the readers of the home paper—in short, the whole buying community.

ADVERTISING teaches that loyalty to the home merchant brings real returns in better service and better values. It's a lesson that requires the repetition afforded by the weekly arrival in the home of "The Enterprise."

You can teach the public to rely on your Advertisements as safe guides to economy and satisfaction in shopping. Moreover, people appreciate being asked for their patronage. To them

There is still very little interest being taken in the forthcoming election for council and school trustees. Mayor McLeod hopes to run for re-election, and it is not known yet who will oppose him.

A number of friends were guests at dinner at the home of Mrs. D. M. J. Conway on the evening of New Year's Day. Following the dinner, the evening was spent at "forty-fives" and dancing.

### COMMUNICATION

Bully, Alta., Jan'y 5th, 1926.

Dear Mr. Editor:

In your last week's issue the folks of this pedagogic burg were much delighted to see the weak attempt at poetry, broadcasting to the world the virtues of the town of "Bully." A great philosopher once said: "It takes a very clever man to be sarcastic." The author does not qualify.

The satire, if it may be called so, brought forth a regular volley of poetical masterpieces, in fact so many that we know you would not find space for them all, so we have chosen the most appropriate to reply.

We ask much space in your valuable paper to reply. Will you oblige by publishing for the benefit and edification of all concerned.

The wail of a sorehead is answered herewith.

Yours very truly,

"Pedagogue."

The Pupils' Prayer

Oh Lord of Love look down from above,  
And pity us poor scholars.  
They have hired fools to teach our schools,  
And paid them good round dollars.

An Answer to "Not a Lullaby"

Teachers we have had, who paid their rent,  
And for four long years were quite content.  
The one we got was so full of devotion,  
He earned what he got—An Irish promotion.

The pupils would stick him, but with a scornful look,  
He soon found consolation, in his little "Red Book."

The Gossip in the town of Bully,  
Like most of towns, is always quite free;  
But when he drifted in, it was more like a spree.

Canadians are peaceful as history will tell,  
Had such things happened in Ireland,  
There would have been—well,  
"You know what I mean."

Sound Advice

When reading about Bully,  
That little Crownston town,  
It's plain to see (at least to me)  
The brain work of a clown.  
"You know what I mean."

A man may be a pedagogue  
And yet still be a fool.  
Is matters outside of teaching,  
Not connected with the school,  
"You know what I mean."

And if he's seeking trouble,  
Then, it's trouble he will find.  
For the people of this little burg  
Are neither deaf nor blind.  
"You know what I mean."

Perhaps he has a yearning  
To be thought of as a wit;  
But to those of average learning  
He appears more like a wit.  
In spite of any pedagogues.  
Who try to pose as despots,  
But act more like disgraced hogs—  
We'll run THIS burg OUR way.  
"You know what I mean."

Take This To Heart Also

De ampten on die picket line, enlong de milky way,  
Kump a-wat'win' what your drivin' at,  
an' learnin' what you say.  
The'n' myster' unt to find it out an' guess it line de line  
And often at de meeting when you make a few an' laugh.  
Why, dey send de news a-kitten by de golden telegraph.  
Dem, St. Peter in de erf, what's a-settin' by de gate.  
Jes reads de message wid a look an' claps it on de slate.  
Den you better do your duty well and keep your conscience clear.  
An' keep a-lookin' straight ahead an' watchin' whar you deer.  
Den you'll hab to listen to ol' Pete an' answer mighty straight.  
Et you eiber spees to trubble thru ds alaplaster gate.

A Lament of a Bully-Villain

We've had teachers and teachers  
—Some were the bunk.  
Their mental possessions  
They packed in a trunk.  
Their conceit was colossal,  
The'd strut and the'd preen.  
"EGO"—You know, you see what I mean.

They fancied themselves divinely sent;  
To reform this town without its consent.  
Its etiquette, morals, and dancing unclean.  
"REFORMATION"—You know, you see what I mean.

But parents objected and some voiced their views.  
While others could have said more.  
Had they chose.  
For even the "Angels" can create a scene.

"INTERFERENCE"—You know, you see what I mean.

This angelic town, I truly confess,  
Has intelligent men that are hard to impress.  
"Actions speak louder than words,"  
We mean.

"BLUFF"—You know, you see what I mean.  
Now the men in the town of Bully,  
we say

Do things in a candid and open way.  
Revenge and spite, in their opinion,  
has been,

"UNDERHAND AND YELLOW"  
—You see what I mean.

We'll admit this town of Bully, so small,  
Has its faults and its failings, but withal,  
Its men are "above-board", their  
"SELF-SATISFIED"—Sure — You know what I mean.

"Our Dancing"  
"All seems infected that the infected spy  
As all looks yellow to the jaundiced eyes."

"For words, like Nature, half reveal  
And half conceal, the soul within."

"Nor shall your glory be forgot,  
While fame her record keeps."

The Reckoning

(Apologies to Robt. W. Service)  
It's fine to have a "blow out"  
To rave and threaten and taunt.  
To try—and be sarcastic and say the things you want.  
To brood and deeply ponder,  
How behind one's back you may do something that will harm them.  
Or bring your job some day.  
It's bully in a little town to brag and say your fill.  
But it's quite another matter, when you pay the bill.

It's great to slander women  
And do petty things so small  
And to pick upon the young folks,  
Who else would have the gall.  
To drift along regardless, trying to run the town  
With a little tin toy sceptre and imaginary crown.  
To know you're acting foolish, yet to go on fooling still.  
Till the towns-folk call a show-down, and you pay the bill.

Bully has got a little bill,  
Get wise while yet you may.  
For the debt side's increasing  
In a most alarming way.  
The things you had no right to say.  
The things you shouldn't have done;  
They're all chalked down and  
It's up to you, to pay for every one.

The latest song hit in Bully, as sung by the Male Sextette—  
I'd hate to be in Tennessee.  
When the "Eggs" brags and blows  
His gentle voice so dear,  
We'll miss its manly cheer.  
When he's a rolin' stone, just rollin' on  
For he's a rolin' stone, just rollin' on  
To a place in Tennessee.

## NORTHERN GATEWAY IN ANNUAL FETE

The Pas, Manitoba, the Gateway of the North, is all agog over preparations being made for the eighth annual dog derby, which is to be run on February 3rd, 1925. Photographs show the start of the annual 200-mile derby; the Gateway arch, symbolic of the Pas and its surroundings, and a group of Eskimos on their long trek from the north to join in the week's festivities.

THE unwritten law of northern trails, that a dog musher shall never use a whip on his dogs during a long race, is strictly obeyed in the annual 200-mile dog derby, run at The Pas, Manitoba, according to drivers who have taken part in this unique classic. Shorty Russick, winner of the 1924 contest, obeyed this law rigidly, and although he carried a whip, it was not once brought into play. Russick declares his dogs will do better work with kind treatment than otherwise and therefore saves his whip when on a long journey. During the 1924 derby, Russick fed his dogs three times while making the 200-mile run. The first time was at 6 p.m., seven hours after starting; again at 10:20 p.m., when he turned for home, and the third time at 5 o'clock in the morning, when about forty miles from the finishing line. He stopped only 17 minutes at the 100 mile mark and

## GERMANY NOW SOLE DISARMED LAND IN EUROPE

Berlin.—The German valedictories to 1921 and the greetings to the incoming year are largely colored by the ill-fading over the prospective failure of the allies to evacuate the Cologne area on January 19, as forecast from Paris. While the retrospective views expressed concede that the past year has been one of economic and social progress, the one year prophesies none too sanguine over the immediate outlook for the continued improvement of the nation's internal affairs and its foreign relations.

Discussing the subject of the evacuation of the Rhineland, President Ebert said:

"Whatever be their political inclinations everywhere are today one in their feeling of bitter disappointment and their consciousness of a new and painful injustice."

This condition, President Ebert observed, was all the more intolerable because Germany was the only truly disarmed nation in Europe braving with arms.

Germany's New Year's wish, he added, was that a spirit of justice and desire for reconciliation among the nations might prevail over the ideas of might and force, and that the German citizens along the Rhine and in the Ruhr would be accorded their rights and freedom.

## Sends New Year's Message

Presbyterian Moderator Says 1925 Beckons With Expectant Hands.—The Rev. J. H. Pringle, Moderator of the Halifax Presbyterian Church, in a New Year's message addressed to Presbyterians of the Dominion, points out that "for the Presbyterian, Methodist and Congregational churches, 1925 beckons with expectant hands."

"Confusion and controversy may, for the moment," he says, "darken and distress the spirit, but through the parting clouds we herald a new era, where old animosities are buried, where the foothills of controversy are hushed, and, there, with fresh vigor, a United Church goes forth on her glorious mission."

## Canada Receives Nine Million

French and Belgian Governments Liquidate Loan January 1.

London.—New Year's Day saw the payment made to Canada through the High Commissioner's office here of the French Government's loan, amounting to \$5,500,000.

The Belgian Government liquidated its loan from Canada, which totals \$2,500,000.

Referring to the effect on the League of Nations, of the attitude toward it by the United States, Viscount Cecil said that no one in Europe now doubts that the League will succeed even without the adherence of the United States.

"The League will get on without America," he said. "Not as well, of course, but it will get on."

"One indication that Europe's regard for the League is increasing," he pointed out, "is the fact that every year more important states sit in its deliberations. This year there were six premiers and eighteen foreign ministers."

## Choice Rests With Britain

European Situation Must Be Considered Says Sir Eric Howard

Washington.—During the twentieth century Great Britain must choose between an association of nations or the notorious doctrine of the balance of power, with its policy of intervention in the affairs of other nations, Sir Eric Howard, British Ambassador, declared in an address before the American Political Science Association.

The United States, he said, on account of its geographical position, might hold aloof from European entanglements. At the present time he could see no one power threatening to dominate Europe. There is a breakage in which to consider the whole situation, he asserted.

## A UNIFORM RATE STRUCTURE FOR ALL OF CANADA

Ottawa.—In the forthcoming session of Parliament consideration of the fundamentals of a new and uniform rate structure will be one of the outstanding subjects. The intention to take it up is indicated in a message which the minister of railways has sent to the Grandfroid Board of Trade. That body, originally instrumental in launching the case that ended in the railway commission's judgment, has complained anew of the discriminations resulting from the interpretation placed upon the agreement. Mr. Graham, while conceding possible inconvenience from the suspension of the commission's order, hopes that "a way will be found for a re-organization of the rate structure, applicable to just to all parts of the country."

The Supreme Court has just fixed February 2, for argument on the Crown's last appeal. Whatever the judgment, whether it upholds or disallows the finding of the commission, the evident purpose here is to have Parliament discuss the whole matter in the hope of laying a basis for a uniform structure. Details of rate making would not be dealt with by Parliament.
